Courses

ReactJS *⊘*

08/2024 - 10/2024

Udemy

Completed a comprehensive ReactJS course on Udemy, covering essential concepts such as components, state management, hooks, React Router, and Redux Toolkit. Gained hands-on experience in building dynamic and responsive web applications.

Projects

Sneakers Store *∂*

10/2024 - 11/2024

Developed a modern and responsive e-commerce shoe store using ReactJS, TailwindCSS, Redux Toolkit, Framer Motion, and React Router.

The platform features an intuitive UI, seamless navigation, dynamic product filtering, a shopping cart with state management, and smooth animations for enhanced user experience.

Woo Bank ∂

11/2024 - 11/2024

Future Banking Services Landing Page

Designed a sleek and professional landing page for banking services using **ReactJS and TailwindCSS**. The page features a modern UI, responsive design, and a user-friendly layout to showcase banking solutions effectively. Optimized for performance and accessibility to enhance user engagement.

Tenzies Game *∂* 12/2024 – 12/2024

Built an interactive **Tenzies Game** using **ReactJS** and **CSS**. The game challenges users to roll and match dice with the same number, featuring real-time updates, a timer, roll counter, and win detection logic. Designed with a clean and engaging UI to provide a fun and responsive user experience.
